Glass Bottles Now In Store - Direct From US

Did you know:

- The actual meaning of the word Witch is linked to "wisdom" and is the same root as "to have wit" and "to know".
- It comes from the Anglo-Saxon wicca (f) or wicca (m) meaning "wise one", witches being both female and male.

These stunning little glass bottles have many uses.

The very petite clear glass Flat Spell Bottle, Spell Flask & Spell Mason Jar, are all small enough to be worn as pendants and have a metal ring in their cork stoppers to thread a fine chain or cord through, so your work is easy to be

carried around with you i.e. Protection Spell Oil or Love Drawing Spell Oil.

Always with you, they can't be forgotten, or laid down somewhere where others could touch them and destroy all your hard work.

At only \$3.75 AUD each, they are Simply Perfect!

Witches' Salt

Black Salt

Witches' salt is another name for what is usually called "Black Salt".

Black salt is either black or speckled black and white, unlike standard white salt.

Black salt is usually table salt (sodium chloride) with additions although some simply dye salt black.

It may or may not be edible but is usually used as a magical powder intended

to either cast or antidote a malevolent spell.

Additions to the salt may include any of the following:

Scrapings from the bottom and sides of cast-iron pans or cauldrons

Black Pepper

Charcoal

Powdered, dried snakeskin

Excerpt taken from The "Element Encyclopedia of Witchcraft - the complete a-z for the entire magical world" by Judika Illes.

Both the Black Salt (imported from US) at \$3.30 per 1oz/28.4gm bag, & the Encyclopedia of Witchcraft at \$55.00 each, are available at Natures Gifts online store.

"It is better to have loved and lost - Rather than to have never loved at all"

"Sweet Love" Crystal Charm

"It is better to have loved and lost , rather than to have never loved at all" How many times have you heard this comment and thought "Yea Right, You Try It", losing your love is one of the hardest things upon the Earth to get over emotionally, and here we will show you a simple little charm to help keep your relationship sweet.

You will need: Tumbled Amethyst, Citrine, Rose Quartz & Clear Quartz Crystals. Two Tonka Beans, a Red Flannel Mojo Bag & Anna Riva's "Enchantment" Mystic Oil.

Method: Wash each of the crystals in cool water, pat them dry & place them in the sun for three hours or over night on New Moon - to clear & charge them.

Anoint the crystals & Tonka Beans with the oil, hold them between your hands, and chant:

"Sweet as sweet no more sour or indiscrete. Stones of power, Plants of luck in love, do your sweet magick every time we meet"

Still holding the crystals and beans between your hands, bring them up close to your lips and whisper

"I (state your name) and (state your partner's name) are sweet as sweet, no more sour, or indiscrete.

Stones of power, Plants of luck in love, do your sweet magick every time we meet"

Place your crystals and beans inside your red flannel Mojo bag and close the bag by pulling the draw strings tight, draw the strings around the bag, on opposite sides (so the top folds down) and knot the strings three times, then knot the ends of the strings together and cut off and raggedy pieces off the end, so it is nice and neat.

Carry the bag with you in your handbag, pocket, or anywhere close to you, all the time. You can charge the charm in the New Moon each month to keep it strong.

You will find everything you need to put this charm together at [Natures Gifts Online](#)

Georgie's Place

Georgie has turned Two this year, and is quite the man-about-town; what with entertaining customers in the shop, greeting them upon their arrival and seeing them to the door when they have finished their shopping, and following staff from room to room, jumping in front of them if necessary to get their attention, playing in the floor length curtains and playing catch with his toys, he is a busy little guy.

Georgie now has a bed of his own in each of the main

work areas, so he can be comfortable wherever we are working. If Georgie does not appear when a customer arrives, "Where's Georgie" is asked, even before hellos are said. This handsome little black dwarf rabbit has won hearts all over the world, his web page at Natures Gifts Online "Georgie's Place" gets the most hits of the entire site.

Georgie is being utilized to rid adults and children alike of their fear of animals, and although the young set get to see him

every few months when Mum shops or has a private consultation, as of at the time I write this, three children are now asking for a Georgie of their own.

Because of his playful loving temperament we are making Georgie available (with his ok of course) to anyone who has a doe dwarf they would like to breed.

If you are interested in breeding with our sweet little man, please call us on 08 8363 7733.

Georgie loves playing in unpacked stock boxes. He adores boxes, handbags and carry bags, and has been found in the suitcase of one of our reps.

Witch & Wizard's Empowerment Incense

This incense is herbal, incorporating herbs, gums, and oils, all blended together to create an incense of empowerment.

You will need:

A Mortar & Pestle, a Glass Jar or Box, Glass or Ceramic Bowl, wooden spoon, Herbs & Gums as

- follows -
- Allspice x 3
- Elecampane x 4
- Honeysuckle Flowers x 3
- Juniper Berries x 1
- Lavender Flowers x 4
- Licorice Root x 3

- Oils as follows -
- Cinnamon x 3
- Frangipani x 9
- Patchouli x 2
- Neroli x 5
- Violet x 3
- Jasmine x 5
- Gardenia x 9

Method: Grind each of the herbs, in the order as written, one at a time, chanting as you grind "Empowerment is mine, this I choose, from now and evermore, Empowerment Be Mine".

When all herbs are ground, make a well in the middle of the herbs and add the oils, in the same order as written, mix together well and place in jar or box to settle, place your hands over the incense and chant as above, then leave for up to 3 days, to seat incense in its ultimate power. May your Power Be Mighty.
